

Problem

Given a string S, find the longest border of the string.

A border is a non-empty substring that is both a prefix and a suffix of the string, but it must be shorter than the entire string.

S = "ababa"

Prefixes: "a", "ab", "aba", "abab" Suffixes: "a", "ba", "aba", "baba"

The longest common prefix and suffix is "aba".

Therefore, the answer is:

aba

Input Format

A single line containing the string S.

Constraints

$1 \leq |S| \leq 10^5$ S contains lowercase English letters.

Output Format

Print the longest border of S.

Sample Input 0

ababa

Sample Output 0

aba

Sample Input 1

aaaa

Sample Output 1

aaa
